Step 2: It is highly recommended by the manufacturers to watch the video tutorial before beginning installation process. www.cssinco.com/manuals www.cssinco.com/videos	
Step 3: Start installation process following steps shown in user manual and revisit video tutorial when necessary.	
Step 4: Double check functionality of terminal by going through the verification process:	
1. Plug in power	
2. When powering up, refer to the <i>JXG 213 First time Power on Setup</i> document and follow steps to set up activation password. Make sure to write down password!	
3. Test for functionality by taking temperature. The red or green bar MUST be present with the temperature shown inside to ensure successful installation.
